

Homemade Lotería: These will be the cards to call out loud and play loteria. Color them and cut them out. Create your own combination of objects by drawing and coloring them on the next pages and use beans or small chips to play. One of the players will be in charge of calling out the objects from the cards stack, if that object is drawn on your paper, put the bean or chip on top of it. The first player to cover all of their drawings yells Loteria! and is the winner.
